BRING YOUR MOTOR VEHICLE WORKSHOP INTO THE 21ST CENTURY

- DO YOU ROAD TEST - RISKING LIVES, ACCIDENTS- DAMAGING CUSTOMER VEHICLES AND CUSTOMER CONFIDENCE
- DO YOU ROAD TEST- WASTING TIME & MONEY- BREAKING SPEED LIMITS -GETTING STUCK IN TRAFFIC JAMS
- DO YOU ROAD TEST- GUESSING A CUSTOMERS PROBLEM OR GUESSING IF YOU HAVE RECTIFIED IT
- DO YOU CHECK EXHAUST EMISSIONS & ENGINE CONDITION WITH A STATIC TEST ONLY
- DO YOU ROAD TEST CARS OR BIKES TO GUESS IF THEY ARE A GOOD BUY OR SALE

IF THE ANSWER IS **YES** TO ANY OF THE ABOVE

**A BAPRO CHASSIS DYNAMOMETER -
IS THE ANSWER**

Finance from only £116 per week (£16.57 a Day)

THE ADVANTAGES of 'IN HOUSE' DYNAMOMETER TESTING

- **HEALTH & SAFETY** No risky Road Tests or Accidents or damage to vehicles
- **CUSTOMER SATISFACTION** Customers don't like you Road Testing
- **FAULT DIAGNOSTICS** Identify problems using your own Test equipment. Rectify simulating the exact conditions - Speed, Load, Temperature etc. Print results before and after to give proof to customers
- **CHECK EMISSIONS** -Effective testing can only be carried out under Load conditions
- **ENGINE TESTING** -The Power Output of the Engine under variable Load quickly identifies any Engine wear,
- **CAR SALES** - A quick test on the Dyno will show if you should be buying and prove to a customer he is buying a sound Car
- **ROAD TESTING** Takes up to 4 times longer than Dyno Testing.
- A Dyno will save you Labour and increase Profits.

bapro

Bapro is the only company totally dedicated to the development and production of chassis Dynamometers for Cars and Motorbikes; developing Chassis Dynamometers for the utmost repeatability and accuracy. Our Dyno test chassis offer you the opportunity to test every kind of Vehicle, with any Power, moreover it gives immediate and significant benefits.

Our range includes:

- 2 - WHEEL DRIVE (STANDARD or HIGH POWER Series)
- 4 - WHEEL DRIVE (STANDARD or HIGH POWER Series)
- 1 - ROLLER DRIVE MOTOR BIKE (STANDARD)
- 2 - ROLLER DRIVE MOTOR BIKE (HIGH POWER)
- FULL RANGE OF ACCESSORIES & COOLING FANS
- SOUNDPROOF CABINS

MAJOR BAPRO DYNAMOMETER FUNCTIONS

- Graphical, dynamic and numerical display of wheel power, power loss, engine power and torque
- Correction of engine power in accordance with DIN 70020, EWG, ECE-R15, ISP 1585
- Multi Language customizable software, works with all Windows OS versions
- Continuous (sweep) and discrete (static) performance measurement
- Analysis of the performance diagrams through cursor function
- Possibility of running driving cycles for vehicles homologations
- Load simulation at constant RPM, speed and traction force
- Road simulation: slope%, air resistance, weight, frictions.
- Test program for speedometer indication
- Dedicated 'Engine Tuning' menu
- Graphical display of the measured values
- Clearly laid out A4 printout (diagram and table)
- Saving and loading of performance diagrams
- Exporting of Datas

- All Dynamometers are supplied fully Commissioned and Calibrated and ready for use.
- 2 x Wheel and 4x Wheel Dynamometer can be either 'In Ground' installed (a shallow recess in the Floor will be required) or 'ON Floor' (a Drive on Platform and Ramp will be required)
- 1 x Roller or 2 x Roller Motor Bike Dynos can be In Ground or On Ground mounted
- All 2wd model are upgradable to 4 wd
